

SATURDAY 12TH SEPTEMBER

SCHEDULE OF TALKS

***Friday 11th: Conference reception & buffet at Charlotte house**

8:15am	Registration	Coffee and Pastries
9:00am	Welcome	Sam Tipper & Tanja Karlsen
9:10am	KEYNOTE	Sian Halcrow
Session 1	Chair Charlotte Primeau	<i>Environment, Disease and Skeletal Evidence</i>
10:00	Daniel Gaudio	The Emergence of Human Remains Following Glacier Retreat: Temporal Accessibility and Scientific Response
10:15	David Bennett-Jones	Growth stunting in late rickets: a quantifiable feature for differential diagnosis, using contemporaneous anthropometric reference data.
10:30	Amy Brooks-Cole	A Novel Approach to Analysing Skeletal Remains: The Application of Keyence Microscopy to the Roman Site of Grain
10:45	QUESTIONS	
11:00	COFFEE BREAK	30min
Session 2	Chair Anna Davies-Barratt	<i>From Cradle to Grave</i>
11:30	Jenna Dittmar	Aiming High: Identifying skeletal injuries caused by the medieval English longbow
11:45	Lucie Biehler-Gomez	Beyond biological resilience: sex differences in stress and health across 2,000 years in Milan, Italy
12:00	Caitlin Hendrie	Undocumented lives: Bioarchaeological and Biocultural Approaches to Anglo-Saxon childhoods in Yorkshire and Lincolnshire
12:15	Aleksandra (Ola) Zofia Deegan	Exploring the complex manifestations of osteomyelitis in the Surgeons' Hall Museum collections from a palaeopathological lens
12:30	Hollie Marie Christelow	Against the expected: Neonatal mercury explored within Roman A Lanzada remains
12:45	QUESTIONS	
13:00	LUNCH	
13:45	AGM	
Session 3	Chair: Sam Tipper	<i>Death, Myth, and Marginalisation</i>
14:45	Ainslie Rockall-Mills	"Justly Condemned to Death": Bioarchaeological Contradictions of Witch Trials and Executions in Early Modern Europe.
15:00	Jack Eggington	Death by the Water: evidence for an early medieval (AD 729-945) violent death on the east coast of Essex, UK
15:15	Lucas Prieto Floriani	Bioarchaeology of Slavery in Uruguay: the finding of the Caserío de los Negros
15:30	Tom Booth	An Unexpected Journey: Bioarchaeological analysis of an isolated partial skeleton recovered from a back garden in Penzance, Cornwall.
15:45	Tanja	What is beauty? An osteological analysis of a local myth and true story
16:00	QUESTIONS	
16:15	COFFEE BREAK	(short 20 min)
Session 4	Chair:	<i>Luck Dip 1 (5min work in progress)</i>

	<i>Tanja Karlsen</i>	
16:30	Richard Giovanni Guamán Chulunchana	Bioarchaeological Evidence of Rhizarthrosis in Indigenous Populations from Gran Canaria (Canary Islands, Spain)
16:40	Maren von Mallinckrodt	Growing Up North – Investigating Early Life Courses in Medieval Northern Iceland (10th–13th Centuries AD)
16:45	Kinga Paják	Non-Invasive Approaches in Holocaust Archaeology: Ethical Challenges and Methodological Possibilities in the Investigation of Mass Violence Landscapes
16:50	Katrina Tomlinson	Developing a new archaeoethanatology approach to animal associated bone groups: A case study from Winterborne Kingston, Dorset.
16:55	Rebecca Reid	Comparative quantification of bone microarchitecture using mobile photon counting detector computed tomography and microcomputed tomography
17:00	Nicoletta Zedda	Living Through Change: Health and Environment in a Rural Apennine Community (10th–19th Centuries)
17:05	QUESTIONS	
17:15	END	
18:30	DINNER	County Assembly Room

SUNDAY 13TH SEPTEMBER

SCHEDULE OF TALKS

08:30	Registration	Coffee and Pastries
09:00	KEYNOTE	Malin Holst
Session 4	Chair: Trish Biers	<i>Beyond the Bone</i>
09:50	Georgia Holmes	Digging Digitally: A reflection on the current state of postmedieval bioarchaeological data collection, archives and comparability.
10:05	Hector Allen	3D reconstructive analysis of the effects of trauma on biomechanics and articulation from skeletonised remains.
10:20	Steffi Vassallo	Photograph quantities and capture methods in 3D palaeopathology: assessing model accuracy, reliability and texture
10:35	QUESTIONS	
10:45	COFFEE BREAK	30min
Session 5	Chair: Elina Petersone-Gordina	<i>The Burden of Health</i>
11:15	Anna Davies-Barrett	Exploring the hypothetical burden of smoking-related respiratory disease in post-medieval rural and urban England
11:30	Maia Casna	Bone depositions in the frontal sinus: an assessment of their diagnostic value in paleopathology
11:45	Isobel Grimley	An Age of Vulnerability? Demographic Variation in Developmental Frailty in the Medieval and Post-Medieval Periods
12:00	Kyla Richer	The Mouth of a Sailor: Navigating the Oral Health of a Post-Medieval Naval Cemetery Assemblage from Plymouth, England.
12:15	Indigo reeve	Health, resilience and frailty in medieval Scotland
12:30	QUESTIONS	
12:45	LUNCH	45min
Session 6	Chair: Agatha Grela	<i>Hidden Signals</i>
13:30	Alette Ann Blom	An isotopic perspective of dietary and religious care in St Leonard leprosarium, Peterborough
13:45	Elizabeth Garnett	Blood lines: a biomolecular study of individuals at Romano-British Poundbury Camp, Dorset
14:00	Katie Erin Faillace & Ciara O'Brien Butler	Of the folk, whose physical sciences end in Ecology: An osteological and multi-isotope investigation of individuals buried at Tintern Abbey, Monmouthshire
14:15	Kerttu Majander	Molecular methods help identify infectious disease in naturally mummified remains from early modern Finland
14:30	QUESTIONS	

Session 7	Chair: Tanja Karlsen	Lucky Dip 2
14:45	Alex Strauss-Jones	Stable Isotopes and Mobile Peoples: An Investigation into Human Mobility within the Peruvian Andes during the Middle Horizon via Sulphur Isotope Analysis
14:50	Bethan Price	Sexual Dimorphism in Medieval Populations: An Odontometric Approach
14:55	Meghan Fitzpatrick	Comparison of fracture analysis methodology in child abuse-related trauma using animal models as a proxy.
15:00	Xander King	Insights (so far) from the Commingled Human Remains from St Augustine the Lesser, Bristol (AD1240 – 1945).
15:05	Samantha Liffert	Here's What We Know: Current Understandings of the Biological Justifications for Ancestry Estimation in Forensic Anthropology
15:10	QUESTIONS	
15:15	COFFEE BREAK	
Session 7	Chair: Georgina Belsham	Data & Disparity
15:45	Jo Buckberry	Dealing with large data: Combining demographic and bioarchaeology to explore health during the Industrial Revolution
16:00	Haoyue Zhao	Are We Missing the Majority? Addressing Data Missingness and Selection Bias in Osteoarchaeological Datasets
16:15	Ronika Power	The Human Remains Research Project: Descent community-centred approaches to ethical engagements with ancient Egyptian human remains in museums.
16:30	Francisco Machado	Forensic Anthropology in Brazil: Training, Professional Boundaries, and the Latin American Human-Rights Tradition
16:45	QUESTIONS	
17:00	END OF CONFERENCE
